# CURRICULUM TECHNOLOGY

SCIENTIFIC SYSTEMS 2010

The demand for hands-on learning activities for today's student has never been higher. In response, the Curriculum Technology team has put together the tools and supplies that pros use in real world work environments and integrated them with activity workbooks, demonstration videos on DVD, and additional instructor support resulting in complete hands-on learning systems for your students and instructors.

**Student Kits** - Increase the excitement and commitment of your new allied health and criminal justice students by including individual student lab kits in their programs. Each kit comes in its own high quality duffel and includes the same professional tools and supplies used by professionals on the job. Individual lab kits provide students with an immediate and tangible connection to their career goals.

**Classroom Labs** - For more complex and larger group activities, Classroom Labs provide instructors with the equipment, curriculum (activity workbooks) and supporting DVDs to enable students to gain valuable real world experience in a safe, classroom environment.

**Restock Kits** - Restock kits provide replacement of the consumable items from the Student Kits and Classroom Labs. Bookstore managers and program chairs appreciate our convenient one-stop source for re-supply.

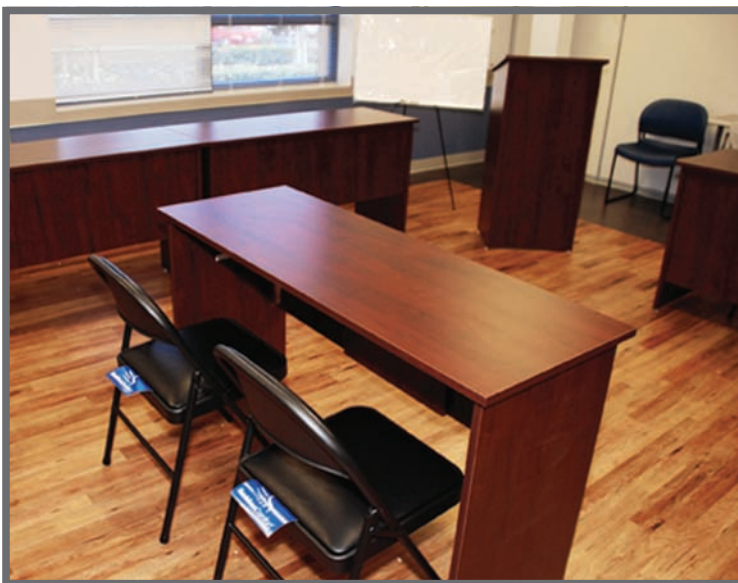

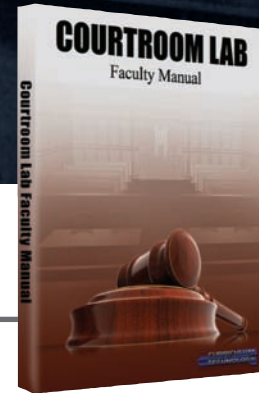

**Custom Kits** - With higher volume, custom kits for students as well as custom labs for classroom use can be created to meet specific curriculum needs. This may include the development of additional workbook activities, instructor ancillaries and kit components. This service is especially beneficial to schools offering online programs.

# COURTROOM LAB

Take your Criminal Justice or Paralegal program to the next level. Utilized for authentic courtroom role play activities, the Courtroom Lab consists of modular furniture that can be configured as a traditional courtroom, including a judge's bench, witness stand, prosecution and defense tables and jury tables.

The lab ships complete with a gavel, judge's robe, flag and flag stand, state seal, and more. Curriculum Technology also includes a lab manual that contains 20 case scenarios, enabling your instructors to readily provide students truly unique and fun courtroom experiences.

Monadnock Safety Cuff Cutter	1
Caribiner	1
Husky 24" Bolt Cutter	1

# ALLIED HEALTH MEDICAL KIT

Including Student Medical Kits in your allied health coursework will differentiate your programs from the competition. Your students will love having their very own set of tools and supplies just like those used in professional medical environments, and your campus administration will appreciate having the capability to better control consumables expense in your medical labs.

Our Student Medical Kits include a stethoscope, blood pressure cuff, digital thermometer, latex gloves, bandage scissors, as well as a large assortment of first aid supplies that will enable your students to practice the techniques they'll be using in their professions. Convenient re-supply kits are also available for purchase by those students who exhaust their initial allotment of first aid supplies.

Item	Quantity
Standard Stethoscope (various colors available)	1
Blood Pressure Cuff Aneroid - Adult - pvc	1
3M Micropore Surgical Paper Tape 1" x 10 yd	1
3M Transpore Surgical Plastic Tape 1" x 10 yd	1
NS Latex Gloves - Exam - Powder Free	100
Oral Digital Thermometer	1
Digital Thermometer Sheath	50
Standard Stethoscope (various colors available)	1
Alcohol Prep Pads bx 1.93	1 box
Coban 1" x 5 yd	1
Ace Wrap (generic) 4" x 10 yd - self adh	1
Packing Strip - ST - 1/4" x 5 yd	1

Student kits are available for re-sale only by authorized schools for use in related courses. Students should only use lab and kit materials at the direction of their instructor. Forensic equipment includes items that can cause injuries and damage if misused or from carelessness. Curriculum Technology is not responsible for injury or damage caused by the use of this equipment.

About Curriculum Technology:

Curriculum Technology develops academic and training content with a focus on the student learning experience. We offer multi-media based courseware and textbooks, custom labs and lab kits, as well as dynamic support materials that enable instructors to deliver a rich and interactive learning environment.

Curriculum Technology clients benefit from our broad experience in education, publishing, and media, as well as our ability to meet the 'time to market' demands of the private post-secondary business space.
